

EBH 22/23 (2nd Term) – TUTORIALS

TASK 2

Each group will present one of the following illustrations resorted to by the author of Text 1.

Agr - agrarian crops (pp. 13-14)

Bif – Bifurcation Theory (p. 5)

INS - N and S Italy

Neo - The Neolithic Revolution

Q&Q - Quany and Qualy

TIP - The Inuit People

RECOMMENDATIONS

Each group will prepare a short exposition about how **two** of these illustrations explain the argument developed by the author.

The lecturer will assign the illustrations to the groups in the ‘Tutorials’ folder in **FENIX**.

Remember that in order to present an **argument**, it is essential to explain the **problem** that it responds to.

Presentations should be focused and straightforward.

Groups can only use 1 slide (only with pictures, shapes, tables or graphs; no text) and presentation time cannot exceed 5 minutes.

The work (and the marks) will be the same for all students in the group, but it is not essential that all students speak during presentations.

Good Work,
