MENDELEY

Biblioteca Mendeley Desktop – Adição e importação de documentos

The screenshot shows the Mendeley Desktop application window. The 'File' menu is open, with several options highlighted by orange boxes and arrows. Two text boxes provide instructions in Portuguese:

- Adicione documentos, referências e faça entradas manuais** (Add documents, references and make manual entries) - points to the 'Add Files...', 'Add Folder...', and 'Watch Folder...' options.
- Importe documentos ou bibliotecas inteiras em formatos .bib, .xml, .ris e zotero.sqlite** (Import documents or entire libraries in formats .bib, .xml, .ris and zotero.sqlite) - points to the 'Import...' option.

The main window displays a list of documents with columns for Authors, Title, Published In, Added, and Details. A 'Filter by Authors' sidebar is visible on the left, and a 'No documents selected' message is shown on the right.

MENDELEY

Biblioteca Mendeley Desktop – Filtragem e busca de documentos

The screenshot displays the Mendeley Desktop application window. The interface includes a menu bar (File, Edit, View, Tools, Help), a toolbar with icons for adding documents, folders, and syncing, and a search bar in the top right corner. The main area shows a list of documents with columns for Authors, Title, Year, Published In, and Added. A search bar is highlighted with an orange box and an arrow pointing to the search bar. A text box with the text "Busque documentos e referências contidos em sua biblioteca" is overlaid on the document list. On the left side, a sidebar shows the "Filter by Authors" dropdown menu, which is also highlighted with an orange box. A text box with the text "Filtre os documentos por autor, palavras-chave, tag e títulos" is overlaid on the sidebar. The right side of the window shows the details of a selected document, including the title "Vascular function and nitrite levels in elderly women before and after hydrogymnastics exercises" and the authors "Y. Da Silveira Fontenele De Meneses, P. Cabral, F. Orsano et al.".

ZOTERO

The screenshot displays the Zotero application window. On the left, a sidebar shows a library structure with folders like 'My Library', 'Lab Reports', 'My Publications', 'Duplicate Items', 'Unfiled Items', and 'Trash'. The main area contains a table of references with columns for Title, Creator, and Year. The selected reference is 'Puppy parties and beyond: the role of early age socialization pr...' by Howell et al., published in 2015. On the right, a detailed view of this article is shown, including its title, authors (Howell, Tiffani J., King, Tammie, Bennett, Pauleen C.), abstract, publication information (Veterinary Medicine: Research & Reports, Volume 6, Issue 143-152, 2015), and other metadata like DOI, ISSN, and date added.

The screenshot displays the ProQuest RefWorks web interface. At the top, the header shows 'ProQuest® RefWorks' on the left and 'New York University Jane Doe' on the right. Below the header is a toolbar with icons for adding documents, folders, sharing, citations, deleting, tagging, and a search icon. The left sidebar contains a navigation menu with options: 'All Documents', 'Search Databases', 'Last Imported', 'Sharing', 'My Folders', 'Add a folder', 'Not in Folder', 'Ecotourism' (selected), 'Biodiversity', 'Tags', and 'Search for tags'. The main content area shows a list of documents under the 'All Documents' tab, sorted by date added. The list includes: 'Distribution of Economic Benefits from Ecotourism: A Case Study of ...' (tags: Animals, China, +16), 'Ecotourism : practices, benefits and environmental impacts' (tags: Ecotourism, Eco-travel), and 'Closing the ecotourism-conservation loop in the Peruvian Amazon' (tag: Ecotourism, selected). The right sidebar shows the details for the selected document, including the title 'Closing the ecotourism-conservation loop in the Peruvian Amazon', authors 'CHRISTOPHER A KIRKBY, BRETT DAY, KERRY TURNER, SILVEIRA SOARES-FILHO, OLIVEIRA-RODRIGUES', journal 'Environmental Conservation', and publish date 'March 1, 2011'. Orange arrows point from the text annotations to specific features in the interface.

Staphylococcal superantigen-like proteins interact with human MAP kinase signaling protein ERK2

Debabrata Dutta, Devdeep Mukherjee, Indranil Arun Mukherjee, Tapas Kumar Maiti, Amit Basak

more ▾

This study aimed to identify the intracellular binding partner of a unique class of staphylococcal secreted exotoxins called superantigen-like proteins (SSL) from human macrophage and keratinocyte cell lysates. Here, we report that SSL1 specifically binds...

Abstract

Staphylococcal superantigen-like proteins (SSLs) are a class of exotoxins that interact with the T-cell receptor (TCR) and FcγR2b, leading to T-cell activation and proliferation. In this study, we identified a novel SSL1 protein from Staphylococcus aureus that interacts with the human MAP kinase signaling protein ERK2. The interaction between SSL1 and ERK2 was confirmed by co-immunoprecipitation and pull-down assays. SSL1 binds to ERK2 in a dose-dependent manner and induces its phosphorylation. The interaction between SSL1 and ERK2 is mediated by the cytoplasmic tail of ERK2. This study provides the first evidence that SSL1 interacts with ERK2 and suggests that ERK2 may be a novel target for SSL1-mediated T-cell activation.
