## EBH 23/24 (2nd Term) – TASK 2a

Each group has to gather three ‘materials’ (i.e. pictures, tables, graphs diagrams/flowcharts, or maps) about the size, direction and impacts (favourable or otherwise) of three economic flows during the First Globalization (1820-1914):

ASPECTS	ASSIGNMENT
International Trade	Groups E and A
Capital Flows across countries	Groups B and D
Labour Flows across countries	Groups F and C

Please send the materials in a single file with group name before the tutorial, so we can start on time.

Good Work,
