Never underestimate the importance of local knowledge.

To truly understand a country and its culture, you have to be part of it.

That's why, at HSBC, all our offices around the world are staffed by local people. In fact you'll find we've got local people in more countries than any other bank.

It's their insight that allows us to recognise financial opportunities invisible to outsiders.

But those opportunities don't just benefit our local customers.

Innovations and ideas are shared throughout the HSBC network, so that everyone who banks with us can benefit.

Think of it as local knowledge that just happens to span the globe.

# DEFINITIONS

## (I)

1. A **foreign affiliate** is an incorporate or unincorporated enterprise in which an investor, who is resident in another economy, owns a stake that permits a lasting interest in the management of that enterprise (an equity stake for 10 per cent for an incorporated enterprise or its equivalent for an unincorporated enterprise). In the *World Investment Report*, subsidiary enterprises, associated enterprises and branches – defined below – are all referred to as foreign affiliate or affiliates.

# **DEFINITIONS**

## **(II)**

A **subsidiary** is an incorporated enterprise in the host country in which another entity directly owns more than a half of the shareholder's voting power and has the right to appoint or remove a majority of the members of the administrative, management or supervisory body.

An **associate** is an incorporated enterprise in the host country in which an investor owns a total of at least 10 per cent, but no more than half, of the shareholders' voting power.

A **branch** is a wholly or jointly owned unincorporated enterprise in the host country which is one of the following: (i) a permanent establishment or office if the foreign investor; (ii) an unincorporated partnership or joint venture between the foreign direct investor and one or more third parties; (iii) land, structures (except structures owned by the government entities), and/or immovable equipment and objects directly owned by a foreign resident; or (iv) mobile equipment (such as ships, aircraft, gas- or oil-drilling rigs) operating within a country, other than that of the foreign investor, for at least one year.

# **DEFINITIONS**

## **(III)**

**2. Foreign direct investment** (FDI) is defined as an investment involving a long-term relationship and reflecting a lasting interest and control by a resident entity in one economy (foreign direct investor or parent enterprise) in an enterprise resident in an economy other than that of the foreign direct investor (FDI enterprise or affiliate enterprise or foreign affiliate). FDI implies that the investor exerts a significant degree of influence in the management of the enterprise resident in the other economy.

## **1.3 TENDÊNCIAS RECENTES NOS PROCESSOS DE INTERNACIONALIZAÇÃO**

# TENDÊNCIAS RECENTES NOS PROCESSOS DE INTERNACIONALIZAÇÃO

- Alargamento dos espaços tradicionais (v.g. China e Índia)
- Diversidade crescente de modos de operação
- Exploração de modos não tradicionais (gestão internacional de cadeias de abastecimento com controlo mas sem propriedade)
- Especialização das filiais no estrangeiro
- Recurso crescente a acordos de cooperação

# TENDÊNCIAS RECENTES NA GESTÃO INTERNACIONAL

- Declínio da lógica hierárquica: *a EMN como rede*
- Multiplicidade de modos de actuação
- Perspectiva global do negócio (sem esquecer as dif. locais)
- Relevância crescente da gestão do conhecimento
- Diversidade étnica dos gestores de topo

# FUNDOS SOBERANOS

- **O Que São?** Fundos de investimento especiais criados por alguns governos, especialmente de países com reservas monetárias significativas derivadas da exportação de matérias primas, com o objectivo de deter uma carteira de activos no estrangeiro.
- **Dimensão das Reservas:** Estimada em cerca de 5 triliões de USD
- **Investimentos:** Operações Internacionais de Fusão e Aquisição de grande dimensão. Elevada tolerância ao risco.
- **Problemas:** Risco de utilização para controlo de activos estratégicos; falta de transparência. Necessidade de definir regras de modo a proteger as economias dos países receptores.
- **Países com Fundos Soberanos:** China (mais de um trilião de USD), E. A. U., Noruega, Arábia Saudita, Singapura, Kuwait, Russia...
