

2008

» You have the chance to power your own city.

How will you do it?

There are lots of ideas about how to meet a growing energy demand. Here's a chance to try out a few of your own.

Energyville is an online game that lets you choose from a wide range of energy sources to meet the demands of your very own city. Alternatives. Renewables. Oil. Gas. What should be developed? Is conservation the answer? What about safeguarding the environment? See the effect your choices have, then share those results with others.

Energyville is a lot more than just a game. It's a chance to better understand and discuss the energy challenges we all face, then find the innovation and know-how to solve them.

Put your ideas to work at www.join.us.com

Rhonda Zygocki
Vice President, Policy, Government & Public Affairs
Chevron

Why businesses need healthy communities. Education, and healthcare are essential to providing microloans to thousands of entrepreneurs in Africa, funded by technology. It's not just necessary, and committed to the Global Fund to Fight AIDS, Tuberculosis and Malaria. It's making a difference where it matters, since the truth is, our business depends on strong communities. Learn more at chevron.com/weagree

Chevron Human Energy

Something's got to be done.
So we're doing it. Right here in California.
Our venture capital arm is investing millions
in alternative energy start-ups.
We're testing next-generation solar technology
at our Bakersfield operations.
And partnering with the Cleantech Open to help
energy entrepreneurs bring new ideas to life.
We're not just behind renewables.
We're tackling the challenge of making them
affordable and reliable on a large scale.

Chevron Sustainability

Let's go to extraordinary lengths
to protect the integrity of the planet where we operate.
Like Australia's barren island.
It's home to hundreds of unique species. It's a
hardly touched natural wonder. We've
set up a special program to help protect it.
We've set up a special program to help protect it.
We've set up a special program to help protect it.

Chevron City to Surf for Active allows the people of Perth at their very best. Participants raised close to \$400,000 last year, benefiting more than 120 local charities. And this year will take it to even more. We're honoured to once again be the principal sponsor of Chevron City to Surf for Active - and a part of the community that makes it all possible.
