Dear Students,

The above grades are preliminary grades for the examination of the 30th of January 2018.

As you know a minor typo existed in the one of the questions from the 30th Jan exam, so the exam correction was particularly kind to account for that fact.

Still, if you find the above grades UNFAIR you are welcome to retake the **FMI exam on TUESDAY, the 6th February 2018 at 9h.**

In that case the above listed grade WILL NOT COUNT AT ALL (as if you did not hand in) and only the grade from this new exceptional retake will count.

You do not need to confirm attendance at this exceptional exam on the 6th of February 2018. Just show up at Rua Miguel Lupi 20, room 104 before 9h.

See you there if you decide so.

Only after the 6th of February and grading of the new exceptional exams (if applicable) I will post official grades.

Kind Regards,

Raquel M. Gaspar
