

Text 1: Kuznets, Simon – The Modern Economic Growth: rate, structure and spread

Basic topics to consider

1. Modern economic growth (MEG) as a sustained process. What is at stake ?
2. National economy and the Euro-Atlantic world-economy/contemporary world economy. Which is the relevant space to study MEG ?
3. Modern economic growth (MEG) displaying several common characteristics. Why ?
4. 'Modern economic growth [...] as a significant, orderly, and distinctive body of long-term economic experience '. What is at stake ?
5. Pick up 8 different associations among different aspects of MEG (aggregate, structural, international and extra-economic impacts) and show how they are analytically plausible.
