POWER BI

Prof. Carlos J. Costa, PhD

Associate Professor of Information Systems and Operation Management

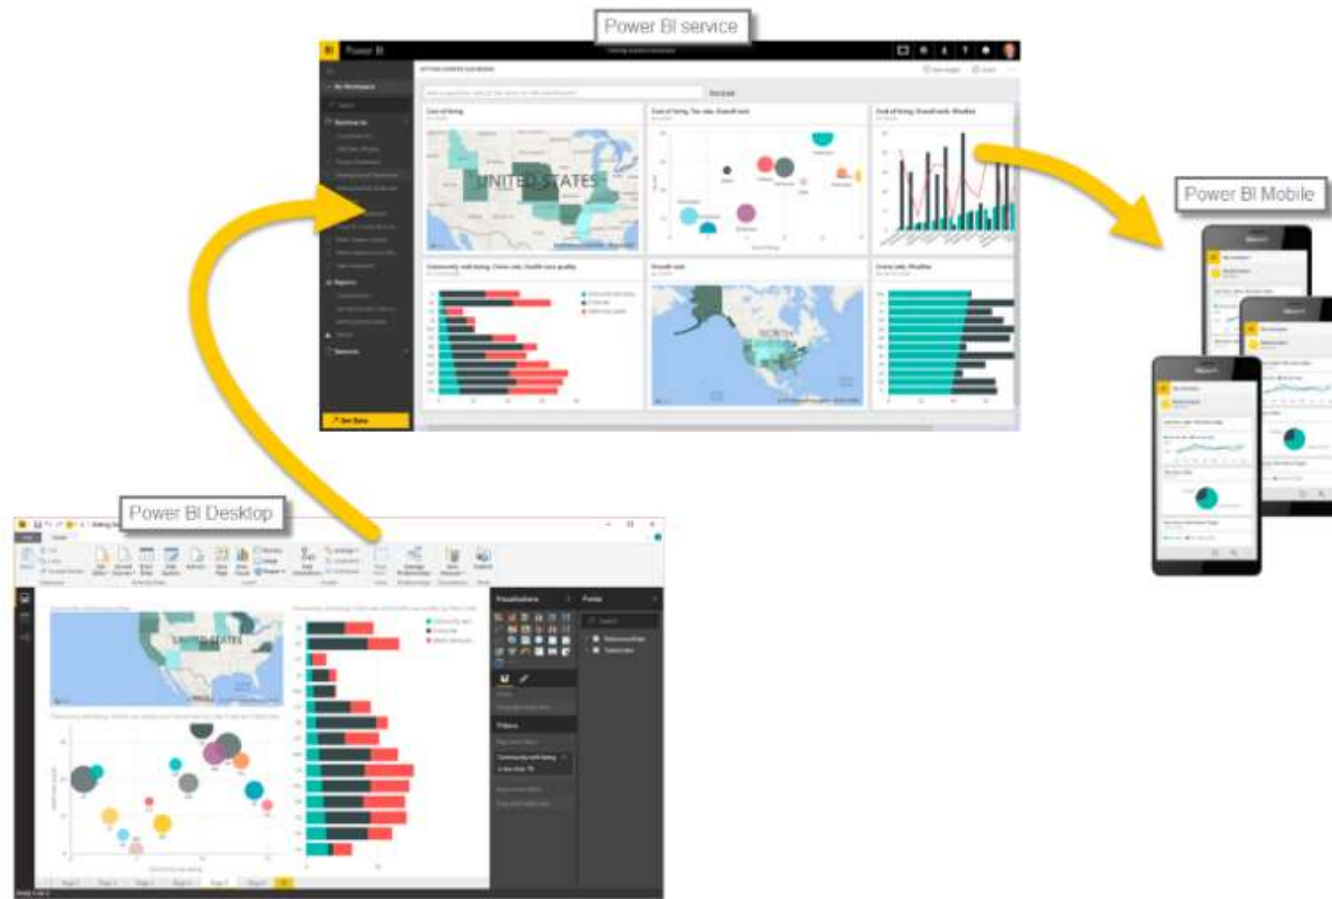

Power-BI

- is a collection of software services, apps, and connectors that work together to turn unrelated sources of data into coherent, visually immersive, and interactive insights.
- Source of data:
 - Excel spreadsheet,
 - collection of cloud-based
 - on-premises hybrid data warehouses.
- connect to data sources, visualize and discover what's important, and share that with anyone or everyone the user want.
