

## Project Presentation Guidelines

The general Project Guidelines posted at the beginning of this course are still valid, but with a few changes here detailed.

Groups A, B, C, and D should send their project report both to me and to their corresponding discussant group by Friday May 8. Corresponding class presentations and discussions will take place on May 13.

Groups E, F, and G should send their project report both to me and their corresponding discussant group by Sunday May 10. Corresponding class presentations and discussions will take place on May 20.

Class presentation and discussion should take 30 min for each project: 15 min for presentation distributed among group members, 5 min for the discussant group to raise questions, and 10 min for general discussion. Presentation should be done by using PowerPoint or similar tool.

Groups are formed as in the following table. Students without a listed group should explain to the lecturer their evaluation intentions for this course.
