## EBH 23/24 (1st Term) – TUTORIAL 3

### TASK 2a

Each group has to gather materials (see below) about the size, direction and impacts (favourable or otherwise) of three economic flows during the First Globalization (1820-1914):

|                             |                |
|-----------------------------|----------------|
| International Trade         | Groups E and A |
| International Capital Flows | Groups B and D |
| International Labour Flows  | Groups F and C |

Students in the group have to know these materials and have them available to use during class, but there is no need to prepare a presentation.

### RECOMMENDATIONS

Read (the relevant parts) of Text 2 for an introduction to the First Globalization and these flows.

Each group should bring three materials relevant for documenting the size, direction and impact of flow mentioned. These can be pictures, diagrams/flowcharts, tables or graphs, maps (not text/sentences/citations).

The work (and the marks) will be the same for all students in the group.

Please send the materials in a single file with group name before 12 AM Friday, so we can start on time.

Good Work,
