

EBH 26/27 (1st Term) – TUTORIAL

TASK 2

Consider the following statement:

“The First Globalization (1820-1914) allowed for the international spread of Modern Economic Growth”

Resorting to Text 5 and to the slides of the coming lectures, each group should prepare a powerpoint file summarising arguments **for and against** this statement. Students may include materials like graphs or tables from the said resources or from other academic sources, provided that they are clearly cited.

1. The work should be presented in a powerpoint template file that can be found at Fenix (TASKS).
2. The file must remain in the powerpoint format (i.e., no conversion to pdf or canvas) and bear the name of the group.
3. The file should be sent by e-mail to the lecturer in charge of the tutorials (mpadovan@iseg.ulisboa.pt) before October 6, 11h00.
4. Work will be discussed at the tutorial of October 7.
5. The failure to be present at the preparation class is penalised in the final mark of Task 2.
