Tomás Rutkowski Barreiros Cardoso		11	5	5.83	2.4	2.8	1.5	12.5	13
Vitorino Atanásio Castro da Rocha									

Notes: Continuous assessment, if not “melhoria,” counts with a 50% weight to the final grade only if better than the exam grade and you had at least 7.5 in the exam; otherwise your final grade is simply the exam grade; blank cells mean you do not have continuous assessment (either because you did not complete it or are doing a “melhoria”)/did not take the exam.
